

Welcome to:

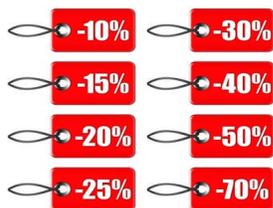

The Internet is now the number one past time and Online Shopping is a global “must”.

Online shopping means any one and every one can purchase an item of any type in real-time through an online shopping store. In order to purchase anything online, you need to have a PC, access to internet and credit or debit card. The first online shopping system was introduced by a German company named "Intershop" in 1994. Amazon is the biggest online retail store and was launched in 1995.

A Consumer can find a product that they are interested in by simply visiting an online retail store or using a search engine (Google, Bing, Yahoo, Ask) to look for them. Or you can use Clubwww1. We are affiliated with and partnered with over 14,000 of the biggest and brightest brands in the world. This connections means our users can make use of special discounts, coupons, vouchers and exclusive sales offers. Our goal is to make available any item that you can find in a physical store...online. Clothing, Jewelry, Airline Tickets, Cars, Watches, Computer hardware, Software, Groceries, Office Supplies, Toys, Hotel bookings, School Supplies, Mobile Phones, Birthday Cards, Wines, Duty Free, Shoes, Pens, Water, Electronic goods and even credit card, debit cards and business cash loans. Everything can be purchased online for personal, office and or business and industrial use.

If you are looking to buy any product online, you first need to know your budget and then start searching for the item. One of the best places to start is [Clubwww1.com](http://Clubwww1.com).

Here you will find whatever you need from buying a car to holiday travel around the world. From office supplies to rental cars, to insurance and health planning, home furnishings, home construction, lighting and décor. The large number of online stores offer not only, good prices,

great value, delivery and service with access to online savings, coupons and discounts, but direct access to each brand you choose. You will be able to start comparing prices and decide if you want to purchase the item from the store offering the lowest price. Remember that the cheapest is not necessarily the best and what is best for one person, may not be best for another.

There are a few factors that can help you save both time and money include checking to see if the online retail store you are shopping with offers shipping to your area and whether the shipping price falls within your budget or not.

You will pay the company that you are buying the product or service from, no one else. So you will always be sure of the safety of your payment details and accept delivery at a day and time of your choosing. This means that concerns relating to quality and returns are kept to a very minimum and are dealt with on a direct basis with the supplier.
